PROFILE

I'm Hazem Mohamed Front End Developer With a strong passion for development, I excel in a wide range of programming languages, with a specialization in front-end development. Proficient in HTML, CSS, and JavaScript, I leverage popular frameworks like React, Next.js, and vue.js to create visually appealing and user interface-friendly websites and applications. My expertise extends to UI design. Skilled in connecting applications with backends through APIs, I also excel in developing mobile-friendly websites for an optimal user experience, highly proficient in the concepts of all the frameworks I work on.

PROJECTS

- **E-commerce React js**

  An e-commerce site for selling and shopping product and after purchasing a product a card is added to it that enables React Js and Sass
